One Year Sweet Cherry Photographed August 1, 1953

The object you see in the above picture is a mule, not me.

We want to thank our many customers, both old and new, for the most successful season we have had in ten years ending June 30, 1953. We had a complete clean-up on all stock and collected one-hundred cents on the dollar on accounts.

We are especially proud of our one year cherry trees this year. They have been grown to perfection by some new methods that we have put into practice. Our sales to date have been exceptionally good. We still have the stock listed herein in surplus and will appreciate any orders that you see fit to give us. We will assure you even a much higher quality of stock than we were able to ship last year on account of the serious drouth that we had in 1952.

SWEET CHERRY ONE YEAR
